

SteriLite Range

GP100 Gallipot - 250ml

Single Use Disposable Polypropylene Gallipot for use in Disposable Sets, Sterile Services, Hospitals and Clinics.

The SteriLite Range comprises of single use, disposable products and was introduced by Warwick SASCo to speed up packing and sterilizing procedures, reducing the need for retrieval and decontamination.

It is ideal for use in Sterile Services, Decontamination Units, Operating Rooms and Clinics due to its low cost, product design, and performance.

The product range now offers single use, disposable trays, kidney dishes, gallipots, sponge bowls, quivers, jugs and medicine measures.

Product Benefits
