## Instructions for Use

### Storage and Handling

- Do not drop.
- Store in original packaging.
- Store in clean and dry conditions.
- Store off the floor on a shelf or pallet.
- Shelf life 36 months.

### Preparation

- Product supplied non-sterile.
- Inspect products before processing.
- Withdraw damaged products and report to manager.
- Product not used in conjunction with any other device.

### Cleaning and Disinfection

- Product supplied clean ready for packing and sterilisation.
- Cleaning and Disinfection not permitted.

## Product Profile & Instructions for Use

### Inspection Maintenance and Incident Reporting

- Visually inspect product to identify damage.
- Discard damaged product.
- Any serious incident that has occurred during the use of this product should be reported to the manufacturer, and the Competent Authority of the territory in which the user is established.

### Wrapping

- Sterilization wrapping sheets and pouches must be compatible with polypropylene material and suitable for the chosen method of sterilization.
- Be aware that some wrapping sheets and pouches shrink during sterilization.
- Pouches must be large enough to contain the product without stressing the seals.
- We advise using a pouch or bag that is 25% larger than the product.

### Sterilization

- Moist Heat sterilization (Autoclave) at 134.6°C (+2°C) for a minimum of 2 minutes.
- EO Ethylene Oxide "Gas" sterilization at maximum temperature of 65°C.
- H2O2 Hydrogen Peroxide "Plasma" sterilization at maximum temperature of 65°C.
- Sterilization procedures and machines to comply with ISO 17655, ISO 25424, and ISO 11135.
- Position tray away from other products to avoid distortion during sterilization.

### Disposal

- If product is contaminated treat as clinical waste, and dispose of in accordance with clinical waste procedures.

### Warnings

- Do not re-use.
- Do not exceed 137°C.

### Important Information for Processing

- The information provided by Warwick SASCo is the company's official instructions for this product.
  - It is the responsibility of the processor to ensure the processing is performed in accordance with this information and that personnel, machines and equipment comply with relevant standards for processing.
  - Any deviation from this information requires evaluation for the effectiveness and potential adverse consequences.
- Additional information available on request contact: enquiries@sasco.co.uk
