

The SteriLite Range

The SteriLite Range from Warwick SASCo is a wide range of single use plastic polyware products.

Designed to speed up packing and sterilizing procedures, SteriLite is ideal for use in Sterile Pack Manufacturing, Decontamination Services, Operating Rooms and Clinics due to its low cost, product design and performance in hospitals.

The SteriLite Range

SteriLite products are manufactured from high quality polypropylene material that is approved for use in medical devices. All products in the Warwick Range are registered as CE Class 1 Medical Devices.

Lotion Bowls • Gallipots • Kidney Dishes • Instrument Trays
Sponge Bowls • Medicine Measures • Jugs and Quivers

SteriLite Benefits

- Low cost and disposable.
- No need to invest time and money into retrieval and decontamination after use.
- Clean and ready for sterilization.
- Suitable for sterilization by Autoclave, ETO or Hydrogen Plasma.
- Can be used as stand-alone items or as a support component for surgical sets to assist surgical and hospital teams with surgical procedures.
- Widely used in Sterile Services for packing instrument sets and procedure kits for the Autoclave.
- Can also be used non-sterile in hospital wards and clinics as vomit bowls or collection bowls.
