Guide to Using Spa Products from Warwick SASCo

Usage

- For use with hot and cold liquids.
- Do not overfill with liquids - ensure there is a sufficient gap between liquids and vent hole in lid.
- Place lid firmly onto beaker, ensuring the spout centre is central between the handles.

Cleaning

- Product should be washed before first use. Wash in hot water with detergents and disinfectants and allow to dry naturally. Max temperature 60°C.
- After use wash in hot water using detergents and disinfectants.
- Spa Products are designed for repeated use - guaranteed for 1000 washes.
- Scouring and abrasive cleaners will reduce the performance of products.

Storage

- This product has a shelf life of 36 months from date of manufacture providing the recommended storage conditions are adhered to.
- Product should be stored in its primary packaging, off the floor on a pallet or shelf, and in a clean dry ventilated room at a temperature of 4 °C - 25 °C.
