Guide to Using Spa Products from Warwick SASCo

Usage

- For female usage only.
- For use in a seated position.
- Ensure bung is securely in place before use.
- To empty remove bung.
- Empty after each use.

Cleaning

- **For Hospital Use** - Wash before first use. Clean in automatic washer disinfectors. Maximum water temperature 100 °C. Do not autoclave bung.
- For further processing information, refer to machine manufacturers instructions and local hospital policy.
- **For Personal Use** - Wash before first use in hot water with detergent. Spa Products are designed for repeated use - guaranteed for 1000 washes. Empty contents immediately after use. Wash in hot water with detergent after each use and allow to dry. Scouring and abrasive cleaners will reduce the performance of the product.

Storage

- This product has a shelf life of 36 months from date of manufacture providing the recommended storage conditions are adhered to.
- Product should be stored in its primary packaging, off the floor on a pallet or shelf, and in a clean dry ventilated room at a temperature of 4 °C - 25 °C.
